Would it be possible to have those each on their own line? I think telephone and utilities can be in the same category.

Joy and I concluded that it would include anything that would be a direct client service similar to that allowed for a non-residential client. So what I included was food, supplies, clothing, telephone, and utilities.

Subject: QER Question

Hi Abigail,

I was reviewing your QER and had a quick question about your "Housing Assistance (Residential)" line... What all are you including under that line?

Thanks,

Emily Kraft
